# Day With the Bankers, the Merchants and the Brokers.

# ANOTHER OFF DAY ON WALL STREET

Dealings Under the Average in Volume, and Little Activity Shown.

NEW YORK, April 8.-Today's stock market was similar in character to that of yesterday, with fair spots of aggressive trength and with a pressure to sell at high points for realizing of profits.

Dealings did not reach the recent averge volume, and the strong stocks were rather less effective in sustaining the market against the realizing at other points. Today's conspicuous advances were in Atchison, Amalgamated Copper and Brooklyn Transit. The movement in Atchison has been foreshadowed for several days, during which points have been published on Atchison's strong position of independence in the transcontinental field and the necessity of consulting it in order to maintain any harmony of action in that field.

order to maintain any harmony of action in that field.

The recent great advance in Union Pacific pointed to a movement in Atchison, also in compensation. The buying of Amalgamated Copper was ostensibly based on the many reports of the strong position of the copper trade. The plain evidence of selling of Union Pacific and United States Steel preferred deprived the market of what has been its most effective support, and other stocks which have been successively advanced have been sold in the same way.

The closing up of a speculative campaign was thus suggested in a way rather unpleasant to the followers of the inteadvance. The preliminary estimates of the week's currency movement makes it probable that the loss by gold exports and sub-treasury operations has been mostly offset by the receipts on balance by the regular express movement. This is without taking into account of the paying out today by the sub-treasury of nearly \$5,000.00 on account of the Japanese gold received activity in stocks and the week's sales of railroad bond issues indicate some expansion in the loan account of the banks. The undisturbed case in the money market is clear proof of abundant resources up to the present, and the bank statement attracts no special interest. Afmoney market is clear product and the bank resources up to the present, and the bank statement attracts no special interest. Af-the lowest prices of the day

ter touching the lowest prices of the day in the final hour, the market rallied and closed steady, but very dull. Heavy realizing in United States Steel second 5s made the bond market irregu-lar. ### STORY OF TRADE TOLD BY MERCANTILE ME

NEW YORK, April 8.-R. G. Dun Co.'s Weekly Review of Trade tomorro will say:

Commercial conditions have somewh improved during the past week, although there is still much to be desired. I patches from the South are most encou nging. At the East more seasons weather prevailed, yet spring trade is se was the settlement of many labor controtersies, or, at least, resumption of work
pending arbitration. Manufacturing news
is still confusing. Notable improvement
in the iron and steel industry is offset by
less fayorable news reserving the testle. below normal. The best news of the we In the iron and steel industry is offset by less favorable news regarding the textile and footwear trade. Agricultural work progresses rapidly under better than average conditions. It is a good sign that the mouth opened with prices of commodities less inflated. Less activity in Western hide markets was not accompanied by weakness; on the contrary, limited offerings by packers gave increased strength to all varieties except native steers of recent saiting.

Failures this week number 225 in the United States, against 317 last year, and 23 in Canada, against 15 a year ago.

Bradstreet.

Bradstreet. Bradstreet.

NEW YORK, April 8.—Bradstreet's tomorrow will say:
Events of the week have, for the most part, been favorable. Weather conditions generally have been spring-like, except in some portions of the Northwest. This has increased retail distribution in the cities, while in the country districts favorable weather has helped farmers in their planting preparations and inproved the condition of winter wheat. The break-up of country roads, however, tends to retard the sale and distribution of merchandise. Wholesale and jobbing distribution tave been helped in tone rather than in yourns by the improvement in weather and in retail trade.

International Company Advices. International Company Advices.

NEW YORK, April S.—Special dispatches from correspondents of the International Mercapitle agency report general trade activity throughout Western and Southwestern territory. Advance business in some lines shows a decline from last year, with buyers everywhere very cautious, ordering only such supplies as are actually needed.

Territory tributary to St. Louis is feeling the impetus of "exposition business," which has averaged large this week and promises to expand as the day for opening the fair approaches. Jobbers in most sections are doing better than a year ago. Textife manufacturing is quite generally depressed, with 35 or 46 per cent of machinery idle in some sections.

# + SILVER + SUPPLY OF FISH FOR LOCAL MARKET

Salmon, Halibut, Bass, Trout, Perch, Catfish and Smelts Offered Salt Lake Epicures.

A large shipment of fish arrived in the city yesterday and the lovers of the finny tribe will have an opportunity to availthemselves of some of the best fish on the market for their Sunday dinner tables. Salmon, halibut, striped bass, Mackinaw trout, perch, catfish and smelts are some of the varieties that came in yesterday, and local dealers say that the assortment is the best received for some time. Moun tain trout are as yet very scarce. Most of the trout sold here is taken from private ponds up in Idaho, and the roads in that State are in such bad shape now that that State are in such bad shape now that shipment is almost impossible. Little im-provement is looked for before May 1st. Foultry traveled higher yesterday and dealers say that there is a scarcity, owing to the season. Live poultry has been sell-ing at 15 cents, but yesterday the quota-tion was 1 cent higher. Dressed chickens advanced proportionately. Following are the quotations of yester-

Grain and Provisions. Grain and Provisions.

CHICAGO, April 8.—Weather conditions were the chief consideration with wheat traders. With storms in the West, Northwest and Central valleys, apprehension was rife concerning farming operations. Apparently the fact that moisture was greatly needed did not appeal to the majority of traders. The market opened firm, with July a shade to tic higher, at \$798.14c to \$794c. Cables, however, were weak, and it was not long before sentiment seemed to change in regard to the weather. What was accorded a built factor became a weakening influence. Some of the big operators had wheat for sale on the initial advance. It was principally long was accorded a buil factor became a weakening influence. Some of the big operators had wheat for sale on the initial advance. It was principally long wheat, and the selling was done seemingly under the impression that the situation warranted a decline. Crop reports from two private authorities were bearish, showing an improvement in the condition of the growing wheat. For a time there was quite general selling, under the influence of which July recated to SULESSE.

Later in the session the market had a quick recovery. A cold wave was predicted by the weather bureau, and reports were received stating that the temperature had dropped below the freezing point in northern Kansas. Advices from the Northwest were extremely bullish, and heavy snows were reported to have fallen in the Red River country. An advance of light at Minneapolis helped to stimulate the demand for wheat here, unusual activity resulting during the last hour. July sold up to 83%c and clessed strong at 85%c87%c. May ranged between 94%c and 35%c, and closed at 36%c. Clearances of wheat and flour were equal to 10,500 bushels. Exports of wheat and flour for the week, as reported by Bradstreet's, were equal to 1,53,600 bushels, against a holiday last year. Minneapolis, Duluth and Chicago reported receipts of 24% cars, compared with holidays last week and a year ago.

Unfavorable weather for the movement caused a firm opening in corn, but there was a strong disposition to sell at the improved prices, and with little support the market soon weakened. July opened 40%c higher, at 51%c8. After selling between 51%c and 53%c. Local receipts were H4 cars, with 36 of contract grade.

Oats were strong on local buying and on covering by shorts. July opened unchanged at 3c higher, at 57%c33%c, sold between 57%c and 58%c. Local receipts were 65 cars.

An investment demand was largely responsible for a firm provision market. Small receipts of hogs and late firmness on grains were instrumented in bringing out the improved demand. The market closed with July pork at

No One But Yourself if You Don't Get Well When Sick.

All we can do la eivo advice.

Of course that's easy.
But our advice is really worth a little more to you than most people's, for we offer to give you the first bottle of our medicine free, if it fails to help you. We could not afford to do this unless our medicine was good. Such an offer, on the wrong kind of medicine, would put a merchant prince in the poor house Dr. Miles' Nervine, however, as years

of experience have proved, is a medicine that cures the sick. Those whom it cannot benefit—less than one in ten thousand—we prefer to

refund their money. All we ask of you is to try Dr. Miles' Restorative Nervine for your complaint, If you suffer from sleeplessness, nervous exhaustion, dizziness, headache, muscular twitchings, melancholy, loss of memory, weak stomach, poor blood, billous troubles, epilepsy, St. Vitus' Dance, etc., we will guarantee to benefit you or refund your money. You are the doctor.

"My son Bert, when in his 17th year, became subject to attacks of epilepsy, so serious that we were compelled to take him out of school. After several physicians had failed to relieve him, we gave Dr. Miles' Nervine a trial. Ten months treatment with Nervine and Liver Pills restored our boy to perfect health."—MR. JOHN S.
